

FIS ST, SMA OR FIXED ATTENUATORS

The washer style attenuator is placed at the light source, spacing the mated connectors features to cause attenuation. The attenuators of various thicknesses are not assigned specific dB values, several factors will dictate actual loss.

TYPICAL ATTENUATION LEVELS (Installed At Light Source)

COLOR	850nm (dB)	1300nm (dB)
Red	2.5	7.4
Blue	3.6	9.1
Green	4.8	10.2
Gold	5.5	11.3
Silver	6	11.7

SPECIFICATIONS

Material	Aluminium
